Digital Capture
Your M*ailroom and AP* Solutions R*eimagined*

Your days of touching paper invoices are over

Digital Capture is a modern mailroom and invoice data capture solution that removes repetitive, manual tasks from the Accounts Payable (AP) process.

Eliminate up to **50%** of the invoice processing effort and cost by centralizing your physical and email-based invoices into a daily delivery of accurate, complete data ready for your AP team to act.

Proprietary software, together with machine learning-assisted OCR, results in SLA-guaranteed **95% data capture** accuracy, giving you the edge.

With this newfound flexibility and visibility, you'll be amazed by what you can do for your company.

Features

Digital Mailroom

Invoice Digitization

Document Separation

Invoice Classification

Header Level Data Capture

Line Data Capture

Post OCR Transformation

Say goodbye to paper invoices and hello to more time for what matters most.

Transform AP with Digital Capture

Accuracy

95% data capture accuracy using machine learning-assisted OCR

Transform invoice detail into ERP-friendly format

Efficiency

Reclaim time spent opening, scanning and keying data

Validate invoices in your accounting system quickly and easily

Reliability

Maintain near-real time visibility of the invoice process

Reduce the risk of interruptions due to malware or natural disaster

Value

Lower invoice processing costs by up to 50%

Realize time-to-value in days, not months with a $0 setup fee

"I wouldn't say I'm a hero. But in the company's eyes, fast turn-around, increased productivity and lower processing costs are most definitely superpowers."
– Director of AP
